

## DENT-LTG-LS

### PoE Linear Suspended

PoE Texas provides a variety of linear suspended lights specifically tested and supported by many PoE drivers including the DENT-LINC device. These fixtures have uplight and downlight adjustable in software via the PoE Network

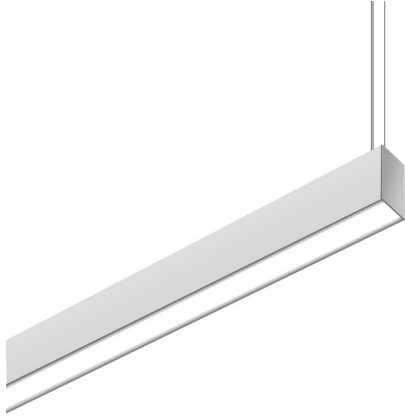

### Low Voltage Wiring

This family of linear suspended lights comes in a variety of sizes, and CCT options and is designed to retrofit into existing applications. When connected to constant current driver such as the DENT-LINC-CC, you will achieve independently controllable uplight and downlight. These fixtures provide low voltage replacement to existing high voltage alternatives and seamlessly plug into any PoE controls platform.

# Denton Linear Suspended Fixtures

## Features

- ◇ Narrow 1.3” width
- ◇ 2’, 4’ 8’ length options
- ◇ All models support lumen control on up-light and downlight independently
- ◇ Low voltage PoE CC driver interface
- ◇ CRI Ra > 80
- ◇ 150 deg uplight beam angle
- ◇ Power - 10W/ft
- ◇ 110lm/W ;
- ◇ 900-1200 lm/ft (depending on optics)
- ◇ 5 yr. warranty (longer options available)

## Ordering Options

(DENT-LTG-LS-<length>-<cct>-<optics>-<mount>

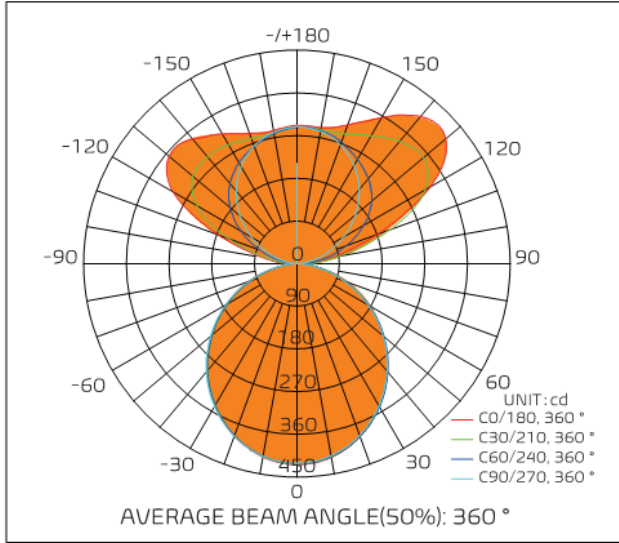

<length>	<cct>	<optics>	<mount>
2 - 2' 4 - 4' 8 - 8'	3000K 3500K 4000K 5000K	D-diffuser R- micro reflector L - louver C - convex	W - wall S - surface P - pendant

## Physical Sizes

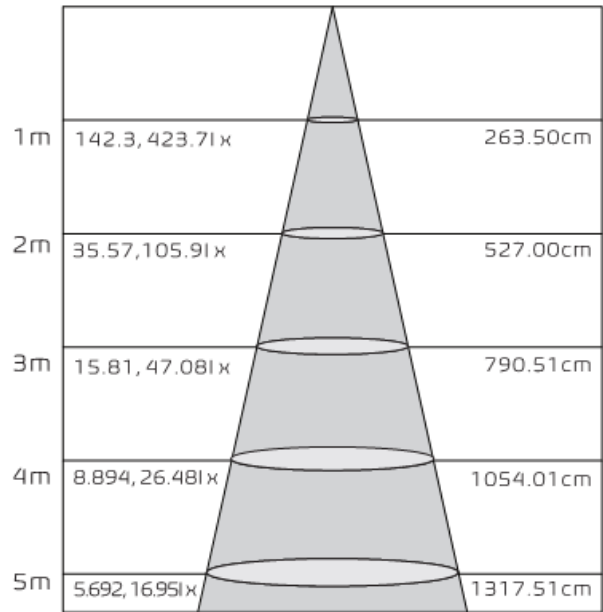

## Performance Examples

Actual performance depends on software settings

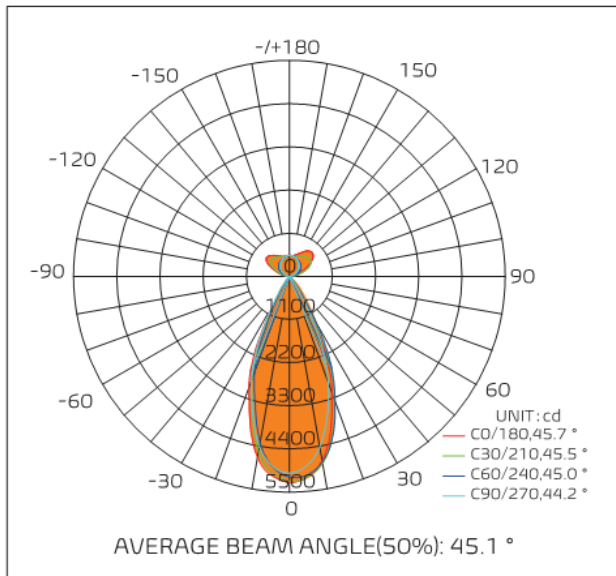

Flux out: 787.3 lm

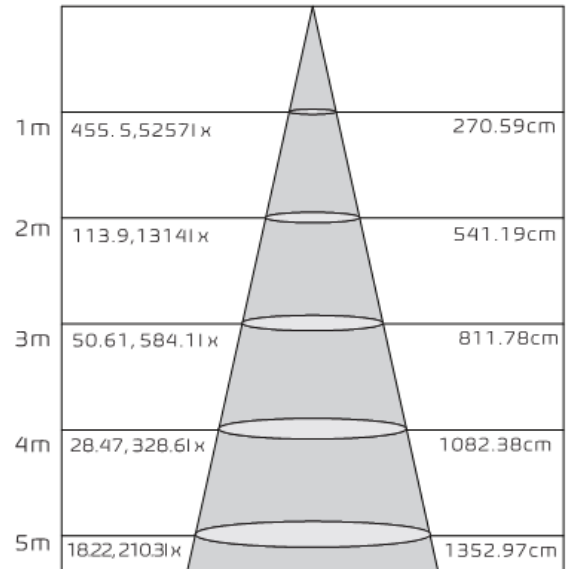

Height Eavg, Emax Angle: 105.60deg Diameter

Note: The Curves indicate the illuminated area and the average illumination when the luminaire is at different distance.

Flux out: 2711 lm

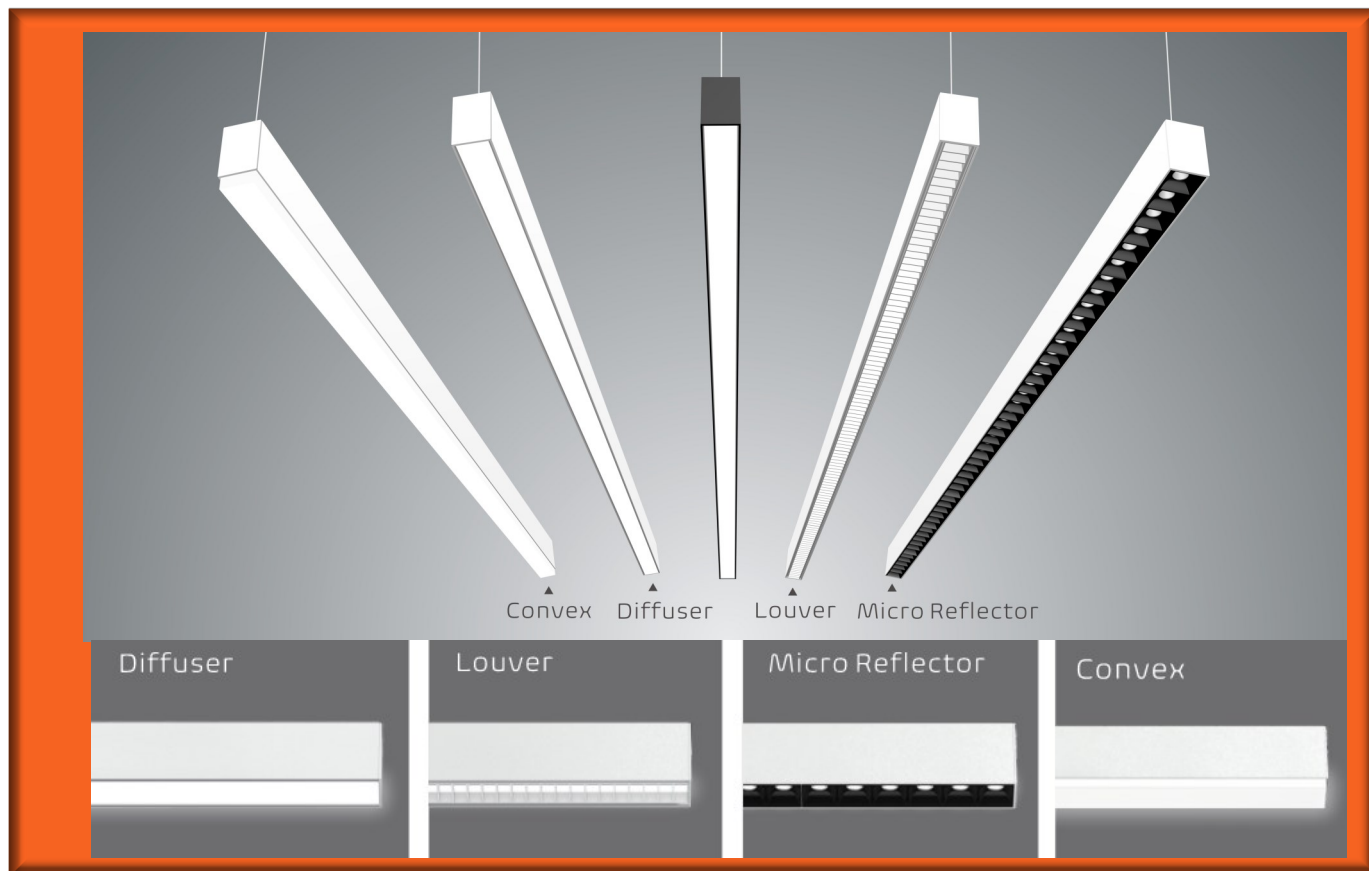

Height Eavg, Emax Angle: 107.06deg Diameter

Note: The Curves indicate the illuminated area and the average illumination when the luminaire is at different distance.
