

PoE RGB Pool Light

PoE Texas provides a variety of RGB Pool and underwater lights for beautiful enhancement of any setting

Dynamic Colors

The PoE RGB Pool light provides 16M color options when paired with the Denton Building automation platform. Its powerful output (18W) illuminates full size pools and ponds with significant color depth and vibrancy. It can be scheduled to come on at any time, or walk through a color palate scene list at various transition times and fade rates. It is designed for recessed lighting, hosts an IP68 rating and a stainless steel housing.
